

PREMIER FORD - YOU MUST STOP SCAPEGOATING US

Your own data shows that the non-essential retail sector **is not the cause of COVID spread.**

Yet your rules continue to target us and shut us down.

You need to understand

We have implemented the strictest protocols and have demonstrated that we can keep customers and employees safe.

You need to care

About the 53,200 jobs already lost or the ones yet to come and 206+ days closed and counting.

You need to take an interest

In what is happening to our businesses and jobs. Leading means taking responsibility and looking at the evidence.

We need to open by June 2nd.

The voice of Ontario retailers
