

Phased Timeline: Section 46 Notice for Federal Plastics Registry

Disclaimer:

The phased implementation timeline provides details on what categories must be reported on and when reporting begins for the Section 46 Notice for the Federal Plastics Registry. All reporting is due no later than September 29 of the given reporting year. Please note that administrative information (Schedule 4 Sections 1-6 in the Federal Plastics Registry) must be reported on every year that reporting occurs. For details on what plastic items must be reported on within each category, please see the detailed summary found here [insert link to detailed summary on RCC webpage].

The information provided in this table is updated periodically by RCC, last update [month/2024].

This table is adapted from [ECCC](#). As the plastic registry is a new, evolving requirement, please ensure to reference the [ECCC website](#) for more information.

Legend	
Year Reporting Begins (additional years listed are years where reporting is also required)	Phase
2025 (reporting of the 2024 calendar year)	Phase 1
2026 (reporting of the 2025 calendar year)	Phase 2
2027 (reporting of the 2026 calendar year)	Phase 3

Category	Subcategories	Identity, source, & quantity of resin: a) imported b) manufactured c) placed on the market	Identity, source, & quantity of plastic in packaging and products: a) imported b) manufactured c) placed on market	Quantity of plastic waste destined for ICI waste stream	Quantity of plastic waste generated at a facility	Quantity of plastic collected at end of life	Quantity of plastic sent for diversion (e.g., diverted for direct reuse, refurbishment, repair, etc.)	Quantity of plastic sent for disposal (e.g., incineration without energy recovery, landfill)
